

Competitive Systems and Practices

CTPM provides a pathway to significantly improve your business with potential government funding, as your personnel receive a formal qualification

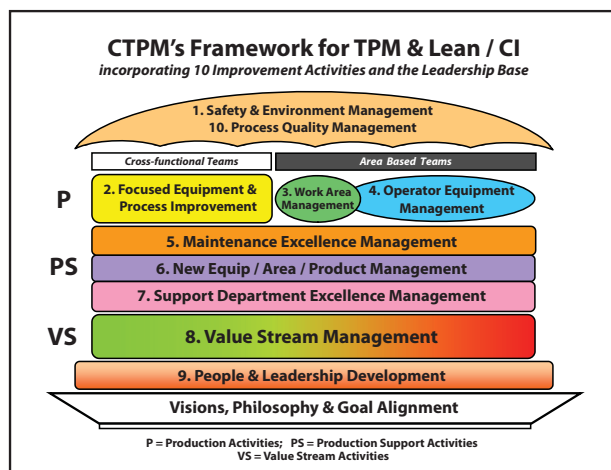

An Australian Government employer incentive may be available for eligible personnel

MSS30316 Certificate III in Competitive Systems and Practices
MSS40316 Certificate IV in Competitive Systems and Practices

CTPM - Who are we?

We are a membership-based organisation assisting companies since 1996 to strive for Operational Excellence by developing and unleashing the full potential of all their people, equipment and processes through on-site Navigation and Training support along with Public Training and Networking Events.

Competitive Systems and Practices Qualifications are aligned with our TPM & Lean / CI Methodology

Our unique approach links the training and assessment for Certificate III and IV in Competitive Systems and Practices to our Continuous Improvement journey, thus allowing:

- Personnel, once enrolled to be assessed for the required units while they are either Team Members (Cert III), or Team Leaders (Cert IV) of Improvement Teams.
- Personnel to be formally recognised with a National Qualification as they contribute to the company's strategically driven improvement initiative, rather than just complete a series of often ad-hoc projects to satisfy their training requirements.
- Practical assessments in the workplace rather than post training assessments in the classroom.

TPM & Lean / CI is a holistic approach to improvement ultimately involving all personnel. As such all personnel within the factory or office can complete the qualifications.

Reward your people

Develop your peoples knowledge and skills within the workplace as they progress the organisations strategically driven improvement journey
