

# Operational Excellence - Think PEOPLE before TOOLS

## 1-day Interactive Workshop

Purchasing new equipment for your workplace in the not so distant future

Establish a standard approach to introducing new equipment to your site

Understand how to get the most value from your supplier to ensure user friendly equipment

During this workshop you will learn:

- The importance of the 5 stages of New Equipment Management - Design, Procure, Accept, Install & Commission and Perform, Monitor & Learn
- How to build key relationships between the key players in the new equipment process
- How to use Life Cycle Costing as the driver for evaluating New Equipment options

## Getting New Equipment Right The First Time

Ensuring new equipment is User Friendly for Operators and Maintainers

- **Functionality is important, however Operability, Maintainability, Trainability and Standardisation are the keys to User Friendly equipment in a TPM environment**
- **Develop checklists to ensure all issues are covered**
- **Ensure Factory Acceptance Testing is done by the right people**

This 1-day Workshop will assist you to understand the differences and benefits of taking a TPM approach to introducing new equipment to your workplace.

It also provides the tools and framework to ensure new equipment is user friendly and performs to expectation.

Next Public Workshop:

**Sydney NSW - 17 July 2019**

Venue: Host TBA
