

Two-day Interactive Workshop based on over 20 years of helping Australasian companies to strive for Operational Excellence

Introduction to Australasian TPM & Lean - **Yellow Belt**

Accredited belt based training pathway aligned with the Australasian TPM & Lean methodology for business and organisational improvement

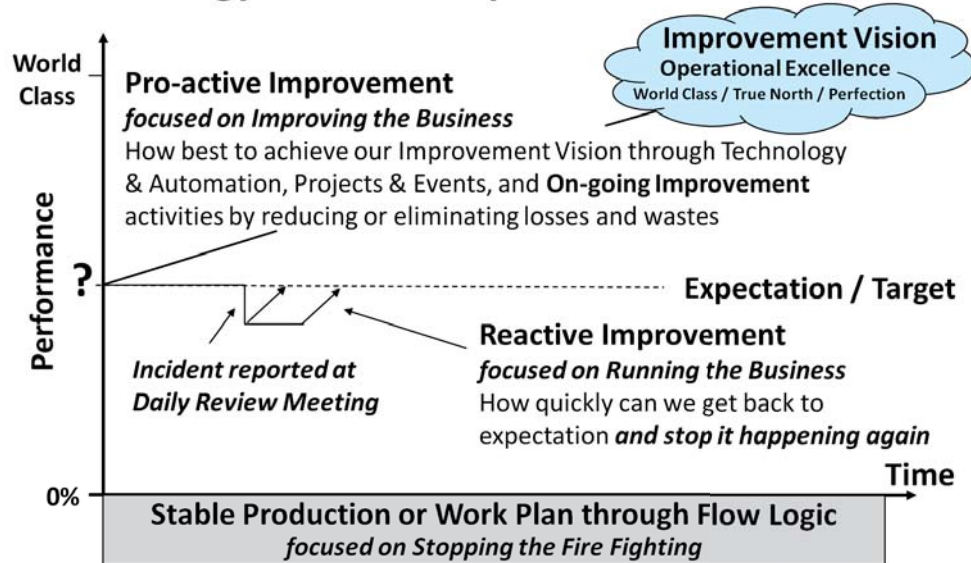

Australasian TPM & Lean is focused on progressively **engaging and motivating all your people** to identify and rectify losses and wastes at the earliest possible time.

Its aim is to improve safety, quality, delivery, people, plant & equipment, supplier and inventory performance so as to significantly improve bottom-line results.

It recognises and applies the **3 critical parts of a Continuous Improvement Strategy to achieve Operational Excellence.**

The 3 Critical Parts of a Continuous Improvement Strategy to achieve Operational Excellence

*Do your people get frustrated because the equipment & processes don't work perfectly all the time?
If you answer 'YES' then this workshop is for you!*

This outstanding two-day workshop will provide a comprehensive strategic pathway to achieve Operational Excellence in an Australasian workplace environment.

Bring all your key people and save on workshop fees with our Group discounts or call CTPM to arrange an in-house workshop.

At the Workshop you will receive:

- Comprehensive workshop manual including rating sheets and checklists
- Lunch, morning and afternoon tea

Plus the following Booklets:

- Developing Frontline Leaders to support your journey to Operational Excellence
- Creating a Philosophy to support Consistency of Purpose

Workshop Leader:

Ross Kennedy has assisted over 150 manufacturing, process and mining sites throughout Australia, NZ, Thailand and Indonesia to understand and implement Australasian TPM & Lean thinking and achieve impressive results.
